## You qualify if you:

- Own a detached, semi-detached, row house, or mobile home or multi-unit residential building.
- Have an energy assessment both before and after your renovations.
- Complete at least one eligible energy up-grade renovation.
- Provide copies of all receipts for energy upgrades.
- The home must be heated with natural gas, or in the process of converting heating fuel to natural gas or electric.

**No Gas? Ask about \$5,600 still available to primary residences regardless of heat source (Greener Homes Program)**

## How it works

- 01 Have us perform a pre-retrofit evaluation before you begin eligible upgrades
- 02 Complete the upgrades you choose
- 03 Have us perform the post-retrofit evaluation to confirm the upgrades
- 04 \$600 of the evaluation costs are refunded, included in the \$10,600 maximum

(1) Amount pre-rated based on amount completed, minimum of 20% required to qualify.  
 (2) The selected windows and doors must be on NRCan's listing of approved models.  
 (3) Please see our website for additional qualifying information.  
 (4) Please see our website for additional information, must be primary source of heat.  
 (5) Grants for each measure are capped at the cost of each upgrade.  
 (6) Other upgrade measures are available and not listed here for simplicity. Please visit our website for more information.
